

IntroDUCKtion Placement

The purpose of the placement assessment is to obtain feedback on a student's skills and knowledge, in order to recommend courses where the student will be able to benefit from instruction and have the best chance for success.

French, German, Spanish

For IntroDUCKtion, students are allowed to take these placement tests online from home. However, the use of any additional aids or assistance is not permitted. To use assistance is a violation of the university's student conduct code.

Please go to **Testing.uoregon.edu** and choose the Undergraduate Tests and then the Summer IntroDUCKtion link. The French, German, Spanish placement assessments take most students approximately 30 minutes.

Chinese and Japanese

Placement testing for Japanese and Chinese will take place on campus on your **first day of IntroDUCKtion at 5:00 p.m.** Your IntroDUCKtion Student Orientation Staff member (SOSer) will go over the schedule and location with you in the morning.

Please note that the **Chinese** placement is timed for **55 minutes** and the Japanese placement is not timed. Most students finish the Japanese placement in about two hours.

NOTE: on IntroDUCKtion Transfer days, we provide drop in testing as space allows.

ALEKS Math Placement

We highly recommend that the ALEKS be completed at home before IntroDUCKtion. It can also be completed on campus at the EMU computer lab.

To access the ALEKS Placement, go to **Testing.uoregon.edu** and choose Undergraduate Tests. There is a link for Math Placement. Follow the 'Learn More' link get more detailed information about the placement as well as link to access the testing website.
